About Better Days

Better Days was founded in January 2016 in response to the influx of refugees in Lesvos, Greece. Our first project was the Olive Grove, an unofficial camp adjacent to Moria camp that supported the needs of thousands of people passing through Lesvos. During its first six months of operation, Better Days and its partners provided aid (medical, food, shelter, and non-food items) to approximately 70,000 people. Since Olive Grove, Better Days has implemented more than ten projects providing legal aid, recreational activities, non-formal education, counselling support, and other essential services to people on the move.

Today we focus on providing an integrated approach to education through educational and counselling services for displaced young people to enhance their opportunities for personal development, academic growth, and independence. Our educational flagship, Gekko, was selected by the 2021 5th Global Entreprs Awards Committee from among 5000 candidates in 126 territories as one of the 100 Best Practices in the world for the implementation of the UN Sustainability Goals. Global jurors highlighted Gekko's mission to improve conditions for displaced and disadvantaged children and asylum seeking people in Lesvos, combined with quality education, as unique in the world. Our new Gekko educational centre in the heart of Athens offers displaced young adults (15-24 years old) access to quality personalised education and counselling in a safe, trauma-informed, and dignified learning space.

About Gekko

Gekko was conceived by Better Days on Lesvos in May 2017 to challenge existing models of education in emergencies by integrating high-quality education with mental health and psychosocial support services in a dignified, trauma-aware environment. Gekko operations in Lesvos reached optimal capacity in 2019-20 with 915 registered students and 452 psychosocial support sessions. Due to interconnected factors including Covid-19, the fire that destroyed Moria camp, and the implementation of closed, securitised camps on the islands, we expanded our projects to mainland Greece.

Displaced young people in Athens are in need of services that lie at the heart of Gekko: trauma-aware psychosocial support integrated with high-quality, individualised education. Thus, Gekko in Athens was born. Our summer pilot program (50 students) launched in July 2023 and the full-scale project (120 students) in fall 2023. Gekko offers a safe learning environment for 15-24 year-olds who are experiencing displacement, and serves as a space where they can offload their troubles and fight for their dreams. We aim to reduce the barriers students face and pave the path to quality education and accreditation.
